OBJECTIVE

Highly motivated and detail-oriented Electronics and Communication Engineering student with a strong academic background. Seeking an entry-level opportunity to apply my technical skills, contribute to innovative projects, and grow professionally in a dynamic organization.

EDUCATION

B.Tech in Electronics and Communication Engineering 2023 Aug - Present
NMAM Institute of Technology, Nitte, Karkala.

Pre-University College (PUC) 2021 Jun - 2023 May
S.V.H Pre-University College,Innanje,Kapu.

SSLC 2020 Jun - 2021 May
S.V.H English Medium Highschool,Innanje,Kapu.

INTERNSHIP

Indian Space Academy-Summer Training with Remote sensing and GIS:

Attended online training on Remote Sensing and GIS technologies. Analyzed urban expansion of Bangalore (2000–2024) using Google Earth Engine and QGIS. Prepared a project report based on satellite data analysis.

PROJECTS

IoT-Based Greenhouse System (MicroPython) 2025

- Developed an Iot-Based Greenhouse system using Raspberry Pi Pico 2W programmed with micropython and using Thonny IDE tool.The System reads real time Temperature, Humidity, Soil Moisture level of a plant and a relay switch is used to operate a water pump or a fan .
- Integrated sensor data acquisition with ThingSpeak cloud and implemented a Telegram Bot to send warning message for a particular threshold value in moisture or temperature reducing manual monitoring by 70 percent.

Sequence Validator using PSoC-6 (Embedded C)) 2025

- Implemented Embedded C firmware on the Infineon PSoC-6 microcontroller with 4×4 keypad interfacing and UART serial communication.
- Developed real-time sequence verification logic to ensure correct and reliable system behavior.

TECHNICAL SKILLS

Programming: C, Embedded C, Python , MicroPython, Verilog (RTL)

Hardware: Microcontrollers, FPGA, Digital Logic Design

Tools: Xilinx Vivado, LTSpice,Arduino IDE,Thonny IDE

SOFT SKILLS

Teamwork – Critical Thinking – Problem Solving – Creativity

LANGUAGES

English – Kannada (Native) – Tulu (Native) – Hindi
